Re: 2024-61, Interior Door Replacements at ÉEC Saint-Antoine, Niagara Falls
MZE/a+d File No: 24-02

In accordance with the requirements of the Construction Lien Act, we have prepared a Certificate of Substantial Performance dated May 15, 2025 for the above project. A copy is enclosed. Enclosed also, please find the contractor's Request for Substantial Performance letter dated May 13, 2025 confirming that the value of work falls within the value allowed under the terms of the Construction Lien Act. Upon verification by the contractor that the certificate has been published in the Daily Commercial News, we will issue a Statement of Substantial Performance for "Payment Now Due" to the contractor.

The statutory sixty-day day lien period will commence the day following the date on which the Certificate of Substantial Performance is published.

Following expiration of the lien period, the contractor will be entitled to payment of the 10% Holdback on the 61st day. Our Certificate for Release of the Holdback will be included with our Statement of substantial Performance.

We have had no indications of any liens having been registered against the property as a result of this contract. We would however, recommend that your solicitor carry out a title search on the 61st day and advise you and this office accordingly of their findings.

We would further recommend that you contact your insurance broker and notify them that this contract is complete and arrangements be made to place the proper insurance coverage on the project.

Yours very truly,

MZE/architecture+design inc.
