Project #
60629053

Dear Mr. Conrad,

**Subject: DTO9-P1 – Brampton, 3495 Steeles Ave. East
Building Permit No: # 20 259209 P01 00 ID**

This letter is to confirm that AECOM Canada Architects Ltd. has been retained to undertake the general review of the construction of the above noted project in accordance with the performance standards of the Ontario Association of Architects.

It is the professional opinion of AECOM Canada Architects Ltd. that:

- The construction is in general conformance with the 2012 Ontario Building Code and with documents prepared by AECOM Canada Architects Ltd. Limited that formed the basis for issuance of the building permit,
- The life safety systems are completed and operational, and
- The general construction has been completed to the extent that we recommend issuance of an occupancy permit.

The remaining deficiencies do not affect the life safety systems.

Sincerely,

AECOM Canada Architects Ltd.

Roy Turner, OAA, LEED AP
Architectural Manager, Buildings + Places,

Project #
60629053

Dear Mr. Conrad

**Subject: DTO9-P1 – Brampton, 3495 Steeles Ave. East
Building Permit No: # 20 259209 P01 00 ID**

The above-noted project has been reviewed as required by the OBC Div. C Article 1.2.2 with respect to the electrical elements of the work.

Based on periodic site reviews carried out by AECOM personnel, we are of the opinion that the electrical work has been carried out in general conformity with the drawings and specifications which formed the basis of the issuance of the building permit.

The remaining deficiencies do not affect the life safety systems.

Sincerely,
AECOM Canada Ltd.

Project #
60629053

Dear Mr. Conrad

**Subject: DTO9-P1 – Brampton, 3495 Steeles Ave. East
Building Permit No: # 20 259209 P01 00 ID**

The above-noted project has been reviewed as required by the OBC Div. C Article 1.2.2 with respect to the mechanical elements of the work.

On the basis of periodic site reviews carried out by AECOM personnel, and the basis of reports submitted to our firm by independent inspection and testing firms, it is our opinion that:

- The mechanical portions of the construction are in general conformity with the documents prepared by AECOM that formed the basis for the issuance of the Building Permit and any changes thereto authorized, and
- The general construction has been completed to the extent that we recommend issuance of the occupancy permit.

The remaining deficiencies do not affect the life safety systems.

Sincerely,
AECOM Canada Ltd.

Brampton, ON L6Y 5T1

Attention: Mr. Conrad

Project No: 60629053

**Regarding: DTO9-P1 – Brampton, 3495 Steeles Ave. East
Building Permit No: # 20 259209 P01 00 ID**

This letter is to certify that AECOM was retained, as described in Section 2.3 of the Ontario Building Code and in respect of the designated permit application number, to undertake the general review of the construction in accordance with the performance standards of the Professional Engineers of Ontario (section 91a of Ontario Regulation 941/90, as amended).

Based on the visual inspection, it has been determined that the construction is in general conformity with AECOM structural design documents that form the basis for the issuance of a building permit and any changes thereto authorized by the Chief Building Official. Subject to completion of outstanding work and the correction of known defects and deficiencies, we are satisfied that the structural work was constructed in general conformance with the construction documents.

Please contact our office if you have any questions.

Sincerely,
AECOM Canada Ltd.

Loay Al-Sabbagh, P.Eng.
Structural Engineer
