Attention: Mr. Hank Woldesillasie,

BTC # 22064

Substantial Completion of the Building Envelope System South Keys Shopping Centre – Unit F (BMO)

Based on occasional site reviews performed by BTC Group Inc. during construction and our involvement during the pre-construction meeting and the general on-going benchmarks, it is our opinion that the building envelope repairs at the former Roots (BMO) stand alone building located at 2204 Bank Street, Ottawa, ON has been performed in general conformity with reference documents and procedures by Gallivan Developments Inc. These reference documents and procedures include submitted Specifications; Manufacturer's published recommendations and accepted roofing/building envelope repair practices.

This opinion is based upon observations made in the field of the work that was readily visible during the rendering of BTC's review services. This report applies only to the portion of the building envelope repairs that was specified by BTC Group and does not apply to the designs of any interior fit up work.

We trust this meets your present requirements. If you have any questions, or if we may be of further assistance, please do not hesitate to contact the undersigned.

Yours truly,
BUILDING TECHNOLOGIES CONSULTING INC.
