Re: Rehabilitation of Various Trunk Sewers in the City of Kingston – Contract UK-20-26

Attached is a copy of the Certificate of Substantial Performance as per your request. Please publish this certificate in the Daily Commercial News within seven days after receipt.

Under normal circumstances, a table would be provided with a summary of value of work completed and statutory holdbacks collected to date, but this is still being evaluated. Regardless, awarded works to Capital have ceased and no additional works that were part of the assignment scope will be executed. It can be stated with confidence that work has been substantially performed, after the scope reduction CO#8 was signed off. Reconciliation of the exact final numbers is still underway.

Approximately sixty days after publication, Utilities Kingston will recommend processing of the release of the statutory holdback, providing all is in order. The statutory holdback release is subject to the provisions of the Construction Act, and the submission by Capital Sewer Services Inc. of the following:

- Dated copy of published Certificate of Substantial Performance
- Contractor Release
- Workplace Safety & Insurance Board Certificate of Clearance
- Statutory Declaration

Please contact the undersigned if you have any questions.

Sincerely,

Utilities Kingston
