Dear Chief Building Official:

During the course of construction of the above project, personnel from our firm carried out periodic site reviews of mechanical and electrical work in accordance with the requirements of the *Ontario Building Code* and the requirements of section 2 of Ontario Regulation 260/08, made under the *Professional Engineers Act*, 1990, as amended.

These reviews were conducted following the procedures described in the Professional Engineers Ontario *Guideline for Professional Engineers Providing General Review of Construction as Required by the Ontario Building Code*. On the basis of these reviews it is our opinion that the work is in general conformity with the drawings and specifications prepared by HH Angus, which formed the basis for issuance of the building permit with respect to the above services and any changes thereto requested and authorized by the Chief Building Official.
