FILE : 200080

1.0 Confirmation of Review

During the course of construction of this project, personnel from our firm visited the site in order to carry out general review of the Work. On the basis of our review, we have determined that the construction has been carried out in general conformity with the Interior Design documents which formed the basis for the issuance of the building permit.

2.0 Inclusions

All spaces within the project tenant suite. The demising walls and main entry door were existing to remain.

3.0 Attachments

Stamped letter for the suspended ceiling seismic restraint.

4.0 Application

This letter applies only to the portions of the work governed by Provencher Roy Interior Design Inc. The project's professional engineers have prepared separate reports. The consulting engineers for this project are:

Mechanical & Electrical: JRP Engineering

Site Supervision:

Anna Westlund,
Partner, Interior Designer

Jenny Lafrance
Architect

Re: General Conformance Review
Seismic Ceiling Restraint
130 Slater St. Suite 1220
Ottawa, ON

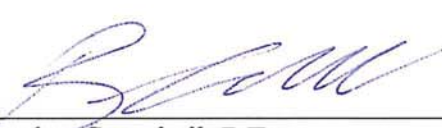

As requested, the undersigned has completed construction review of the suspended ceiling seismic restraint. Eastern Engineering Group Inc had prepared construction details used as a basis of construction.

Based on our review, it is our opinion, that the construction has been completed in general conformance with our design.

Please do not hesitate to call should you have any questions or concerns.

EASTERN ENGINEERING GROUP INC.
